

SACHIN G

MERN Stack Developer | Full Stack Engineer

Madurai, Tamil Nadu | pvg sachin2@gmail.com | +91 9790169958 | gsachin.techmerise.com | github.com/sachinpvg
|linkedin.com/in/sachin-g-2637b4381

PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with proven experience building and deploying production-ready, full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in RESTful API development, JWT authentication, role-based access control, and Agile development practices. Experienced in independently architecting scalable MVC backend systems, integrating real-time analytics dashboards, and delivering responsive, mobile-first UIs with Bootstrap. Proficient with Git, GitHub, Postman, and VS Code. Eager to contribute to a collaborative engineering team and grow within a fast-paced software development environment.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap 5, Responsive Web Design
Backend	Node.js, Express.js, PHP, RESTful API Development, MVC Architecture
Database	MongoDB, MongoDB Atlas, MySQL, CRUD Operations
Auth & Sec	JWT Authentication & Authorization, bcrypt, Role-Based Access Control (RBAC)
Tools	Git, GitHub, VS Code, Postman, Chart.js, MS Office
Practices	Agile Development, CI/CD Awareness, Database Management, Modular Code Design

PROJECTS

Aluminium Fabrication ERP System

React.js, Node.js, Express.js, MongoDB, JWT, bcrypt | Personal Project | 2024

- Built a full-stack ERP platform using MERN stack with MVC architecture to automate end-to-end business operations including bookings, worker assignments, and automated quotation generation.
- Implemented secure **JWT and bcrypt authentication** with **role-based access control (RBAC)** for admin and customer portals, reducing unauthorized access risk.
- Integrated a real-time analytics dashboard (Chart.js) tracking revenue, costs, and profit — enabling data-driven business decisions.
- Designed **modular RESTful APIs** with Express.js, reducing manual workflow overhead and improving system scalability for future feature additions.

3V Photography Booking Platform

HTML5, CSS3, JavaScript, PHP, MySQL, Bootstrap 5 | Personal Project | 2024

- Developed a full-stack photography service booking platform with online scheduling, service management, and payment tracking using **PHP and MySQL**.
- Built core modules for **user authentication, dynamic booking system, and worker assignment** to streamline service operations.
- Designed admin dashboard with **Chart.js visualizations** for real-time monitoring of bookings and revenue — improved operational visibility.
- Delivered a **responsive, mobile-first UI** using Bootstrap 5, improving cross-device usability and customer experience.

CERTIFICATIONS

MERN Stack Development — Win Institute, Madurai | 2025

- Completed comprehensive training in React.js, Node.js, Express.js, and MongoDB with hands-on project delivery including RESTful APIs, JWT auth, and MongoDB Atlas integration.

Pursuing: MongoDB University M001 (MongoDB Basics) — Expected 2025

EDUCATION

B.Sc. in Computer Science	Expected May 2026
The American College, Madurai	
Higher Secondary Education — Computer Science	2023
Amali Matriculation Hr. Sec. School, Madurai
